

What do I want to learn or understand better?

I want to learn more about the tools we are planning to use for the project (JavaScript, HTML, CSS, React) and I want to understand Scrum better.

How can I help someone else, or the entire team, to learn something new?

I think we all can learn something new from each other with good communication and teamwork, especially since we come from different programs.

What is my contribution towards the team's application of scrum?

Communicating and working with the team when we encounter problems.

What is my contribution towards the team's deliveries?

Shared my opinions and thoughts to move the project forward.
